

Instant Yet Indulgent

It starts with superior beans grown on sacred land and ends with medium roast decadence. SUMMA Café is handcrafted to be healthier, with an incredibly luxurious aroma, flavour, intensity and body that rival premium drip coffee.

Fresh brewed and carefully formulated to blend with hot or cold water, SUMMA Café is powered by an exclusive rapid absorption process that unlocks robust flavour and activates optimal health benefits. Every cup is brimming with green coffee goodness. .

A Magical, Mayan Gift of Nature

SUMMA Café is sourced from superior 100% Arabica and green coffee beans grown and harvested by hand in the Chiapas Highlands. These remote, sacred Mayan lands are uniquely rich in nutrients formed by powerful energy from deep within the earth and its volcanic soils. Here, living water flows happily from natural sources and breathes life into our coffee beans, bringing peace, harmony and healthy vitality.

Our People

We support farmers with a fair wage for their premium crop. We believe in fair trade or direct trade.

Our Environment

We support organic, sustainable farming practices to protect our land for generations to come.

Our Wildlife

We support the protection of plants and animals who live in our coffee regions.

Origins of Summa Café

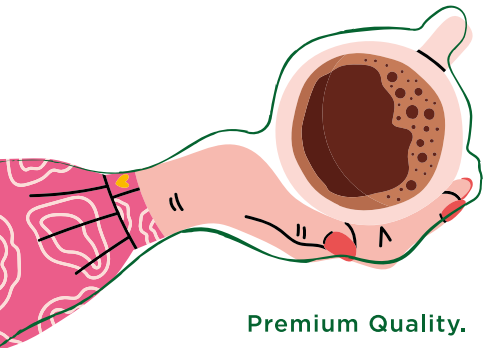

Originates from Chiapas Mountain Highlands of the ancient Mayan civilization of southern Mexico.

Grown by indigenous people of the Mayan civilization, living there for over thousands of years, and are among Mexico's poorest.

Grown in Chiapas Mountain Highlands, rich in volcanic soils & reaching elevations of >12,000 feet (3,659 meters).

Considered one of the priority mega-diversity hot spots of Conservation International.

Projects here aim to support traditional indigenous healthcare & conserve local biodiversity.
